CHILDREN'S SERVICES NETWORK

Vision: A community where there is a children's services system that is effective, integrated and responsive to advance children, youth and their families and where children/youth are valued.

Integration with Education Integration Team

Mission: To develop and promote processes that will facilitate the transition of students through the education system to provide a safe, supportive and successful learning experience.

Priority: To improve communication between children's services and the educational services (through key transitions) for children and youth			
Objective	**Activity**	**Time Frame**	**Party Responsible**
To develop clear communication's channels to ensure that each group (agency) has the developed processes and are using them appropriately	Conduct an information session between school boards and community agency's to increase awareness of each others mandate for service, referral process and in-school supports. Utilize the Children's Services Network Portal to improve access of services provided through agencies and school boards. ❖ Obtain more information from DAC on use of the portal to ensure information meets the communication needs noted.	January 2008 April 2008	All committee members
To determine the challenges between the school boards/schools and community organizations in working together;	Review case studies of various students to determine where challenges may lay in working together	May-June 08 Sept 08	All committee members
To develop a consistent process between agencies and school boards that identifies a contact person for all agencies, clients/families; define the roles and responsibilities.	To be developed	Fall 2008	All committee members
